

GRADUATE SCHOOL OF BIOMEDICAL SCIENCES AND PROFESSIONAL STUDIES  
DREXEL UNIVERSITY COLLEGE OF MEDICINE  
NEW GRADUATE STUDENT OATH

As I embark on my graduate studies in the Graduate School of Biomedical Sciences and Professional Studies I will strive to uphold the values of Integrity, Professionalism and Scholarship. I am proud to belong to an international community of scholars that focuses on solving some of the greatest problems of society.

I pledge never to allow financial gain, competitiveness, or ambition cloud my judgment in the conduct of ethical research and scholarship. I will uphold scientific and academic honesty. I will conduct research objectively, using my knowledge responsibly. By practicing responsible conduct of research, I will maintain scientific integrity.

I will represent my profession honorably by conducting myself and my professional endeavors in a manner that is above reproach. I will pursue truth and create knowledge for the greater good, but never to the detriment of others. I am dedicated to the promotion of basic and translational research for the benefit of humanity.

I will acknowledge and honor the contributions of those who have preceded me and will pursue lifelong learning. I will show compassion, embrace diversity, and above all, uphold excellence so that I become a worthy role model deserving of respect by all.
